Dear Customer,

REACH Statement

REACH is a European Union Regulation concerning the Registration, Evaluation Authorization and restriction of Chemicals. It came into force on 1st June 2007 and replaced several European Directives and Regulations with a single regulation.

The main aims of REACH are to ensure a high level of protection of human health and the environment from the risks that can be posed by chemicals, the promotion of alternative test methods, the free circulation of substances on the internal market and enhancing competitiveness and innovation.

REACH applies to all substances used, manufactured, or imported in the EU. Generally, it applies to all individual chemical substances on their own, in preparing or in articles.

PDC-Plast A/S has contacted its suppliers (located inside and outside of EU) to obtain the information pertaining to any articles containing SVHC's. <https://echa.europa.eu/candidate-list-table> So far none of these suppliers has given us any indication of them being subject to REACH.

PDC-Plast A/S is continuously observing annex XVII <https://echa.europa.eu/substances-restricted-under-reach> regarding REACH restrictions to ensure that all products are compliant.

Should any responses from our supplier indicate any implications with regards to REACH, PDC-Plast A/S will pass this information on to you.

For more information, please contact our Operations & QA Manager at PDC-Plast A/S: Hans Feuk hf@PDC-Plast.dk

Kind regards
PDC-Plast A/S

Hans Feuk
